

Procedures, Policies, & Expectations of Caregivers

In order to complete your registration, please read the following information and indicate on the kids registration form that you have read and agree to abide by the safety policies and procedures as outlined below. Please note:

There are a limited number of spaces available in each of these classrooms/spaces.

MercyKids offers programming at both services and both campuses --

- Providence Road: ages 6 mos through 5th grade at 9 am + 11 am.
- Northeast: ages 6 mos through 5th grade at 9 am.

We are committed to:

- Faithfully teaching the Word of God to your children in an age-appropriate way
- Challenging our learners (age appropriate) to live out the gospel in their everyday lives
- Cleaning all MercyKids environments
- Maintaining safe volunteer to child ratios – we will always have ≥ 2 background checked adults in every room

Safety Protocols for MercyKids:

MercyKids will do everything possible to keep your children safe. That said, we will adhere to the following safety protocols:

- Alcohol based hand sanitizer is available upon entering their room; a hand washing option is also available
- No personal comfort items (with the exception of a labeled or clipped-on pacifier) should be brought into the classroom
- No snacks will be consumed during class - you are welcomed to provide a drink in a clearly labeled bottle or sippy cup with tight-fitting lid

Drop off and Pick Up Procedures

- Please do not enter the classroom
- Please have your tag ready at time of pickup
 - If you lose/do not have a pickup tag, a photo ID will be required for pickup and must match a name provided at check-in as a parent/guardian/person authorized to pick up

Expectations of Caregivers:

MercyKids takes the health and well-being of the kids in our care seriously. With that said, parents, guardians, or caretakers are expected to ensure that children are in good health and have not exhibited any of these symptoms in the last 48 hours:

fever, chills, shortness of breath/difficulty breathing, new cough/congestion/runny nose, loss of taste/smell
